All –

Below is the link to a video from contractor ER. As you'll see below, they tell us it's the only one any of their employees made; others were made by Weston contractors. EPA has also received links to the Weston videos, and only one person has access currently. They are being uploaded to our Share Point site. I'll advise when they are posted.

Subject: RE: Request for video recordings - Reply

Bethany:

Only one video was taken by an ER employee.

Due to the size of the video (69 MB) ER was unable to send the video via email. ER has established a file share where the video can be downloaded at https://secure.logmein.com/f?00_LxEldrXa89XlaJ5MQ0EGMyrWxZBVcGRHma48N6NB

Thank you,

Marilyn

Subject: Request for video recordings
Importance: High

Marilyn,

The U.S. House of Representatives Committee on Science, Space, and Technology has requested that EPA provide all video recordings of the August 5 Gold King Mine incident, including any video recording of events immediately before or after the incident. This request covers any video recording in EPA's possession or in the possession of EPA contractors. Therefore, please provide any video recordings (of any type or format, and in both original and any edited versions) in the possession of any of your employees that were taken at any time on August 4 or 5, 2015, in the vicinity of the Gold King Mine, the American Tunnel, Cement Creek, or the Animas River.

Please provide any responsive videos as soon as they each becomes available, but no later than by 9:00 am on Monday, August 31. If necessary, please make this search a priority over other document review and collection tasks we have asked you to perform under this contract. If you believe that you will not be able to respond by 9:00 am Monday, please contact me to discuss the schedule further.

In addition to responding to the Congressional request, EPA may release video information to the public under the Freedom of Information Act or by posting on a public Agency website. When you respond, please state whether you claim any information you provide as CBI.

If you believe that you have already provided all recordings or you believe that you have no records, please acknowledge by email.

Thank you.

Bethany A. Mills
